Our Hub

Provides a focal point for the local community affected by cancer

Our cancer hub acts as a public space set within the local community, providing access to information and support for people affected by any type of cancer from diagnosis, through treatment and beyond.

There will be opportunities to connect with other charities, community groups and healthcare professionals to offer a wide range of information, activities and services tailored to support cancer patients and their families, or for everyone to simply come together and share experiences, knowledge and speak with others in similar situations over a cup of tea.

So do not struggle alone, the cancer hub is here to provide a listening ear, friendship and social support whenever you may need it.

Who are we?

As Cancer Active Recovery Support (C.A.R.S.) provides alternative ways to connect with others facing similar challenges, offering a supportive and informative network. We promote social, physical, and mental well-being through condition-specific programs, workshops, support services, and fun activities. We support individuals on their road to recovery, enhancing their confidence, self-esteem and quality of life.
